SA Energy Storage 2017

A focussed conference and exhibition covering policy, regulatory, economic, technology, business and application issues associated with Energy Storage, both as a disrupting and an enabling technology.

Exhibition setup and early registration: Monday, 27 November 2017

Conference and exhibition: Tuesday & Wednesday, 28 & 29 November 2017

Site visits: Thursday, 30 November 2017

Venue: Emperors Palace, Ekurhuleni, Gauteng, South Africa

Quotation: Exhibition space at SA Energy Storage 2017

Exhibition space at the **SA Energy Storage 2017** exhibition is limited, and is sold in 1,5 x 3 m or 3 x 3 m shell-scheme blocks on a first-come, first-served basis. So please book early to secure your stand(s) in the most favourable positions.

Exhibition stand prices at the **SA Energy Storage 2017** on 28 and 29 November 2017 are as follows:

| | |
|------------------------------|----------------|
| 1 x (1,5 x 3 m) stand: | R 9 990 + VAT |
| 1 x (3 x 3 m) stand: | R 19 980 + VAT |
| 2 x (3 x 3 m) stand: | R 39 960 + VAT |
| 3 x (3 x 3 m) stand: | R 59 940 + VAT |
| 4 x (3 x 3 m) stand: | R 79 920 + VAT |

For each 1,5 x 3 m or 3 x 3 m stand booked, the price includes: 1 – shell scheme stand; 1 – 220 V AC single phase power point; 1 – twin florescent light; 1 – exhibitor's manual; facia with signage; standard Emperors Palace carpeting; and exhibitor parking.

Each 1,5 x 3 m stand booked includes one free delegate pass, including conference and full hospitality.

Each 3 x 3 m stand booked includes two free delegate passes, including conference and full hospitality.

See Note 1 below for additional exhibitor staff attending **SA Energy Storage 2017**.

On specific request to the shell scheme provider (Compex), 1 – round table, table cloth and 2 – chairs can be provided to an exhibitor at no additional cost as detailed in the exhibitor's manual.

Furniture, flat screens, non-standard carpeting and other optional extras can be ordered separately from the shell scheme provider (Compex) as detailed in the exhibitors manual.

Note 1: Additional exhibitor staff (over and above the complimentary exhibitor delegate passes included as part of the exhibition stand price) may attend the exhibition only (not the conference) at no cost, but may not participate in any of the hospitality events (teas, lunches, networking cocktail party, site visits).

Additional exhibitor staff (over and above the complimentary exhibitor delegate passes included as part of the exhibition stand price) wanting to participate in the conference and hospitality events (teas, lunches, networking cocktail party, site visits) are required to register at a special reduced price of R2495+ VAT per staff member .

Note 2: EE Publishers cannot guarantee the exact position of an exhibition stand on the floor-plan layout, but will endeavour to meet exhibitor preferences on a first-come, first-served basis as a best effort.

A focussed conference and exhibition covering policy, regulatory, economic, technology, business and application issues associated with Energy Storage, both as a disrupting and an enabling technology.

Exhibition setup and early registration: Monday, 27 November 2017

Conference and exhibition: Tuesday & Wednesday, 28 & 29 November 2017

Site visits: Thursday, 30 November 2017

Venue: Emperors Palace, Ekurhuleni, Gauteng, South Africa

EE Publishers is running with a new and different event this year called **SA Energy Storage 2017**. **SA Energy Storage 2017** is a specialised and focussed business-to-business and business-to-utility conference and exhibition to cover policy, legal, regulatory, economic, social, research, technology, business and application issues associated with Energy Storage, both as a disrupting and an enabling technology.

In these tough times everyone is looking for new business opportunities and leads, and we are seeking to facilitate this by leveraging EE Publishers' knowledge of and connections with other economic sectors. **SA Energy Storage 2017** is about showcasing energy storage technologies and opening people's eyes to the power of technology and the various tools that make this possible.

SA Energy Storage 2017 provides a platform for energy storage technologies, tools, skills, services, solutions and applications. Within the theme and sub-themes of the conference, there will be a focus on leading-edge innovative technologies, skills, solutions and applications for business leaders, managers, data analysts, engineers, scientists, project managers and decision-makers from all sectors of the economy. These will include:

- Utility scale battery energy storage
- Utility scale pumped water energy storage
- Utility scale railway based potential energy storage
- Energy storage for industrial, commercial and domestic applications
- Energy storage for electric vehicles
- Energy storage and smart grids
- Energy storage for micro grid applications
- Fuel cell energy storage and applications
- Energy storage for remote power supplies for telecoms and other applications
- Hydrogen energy storage
- Integration of energy storage with other flexible generation sources (like power from gas), to compliment variable energy renewable energy (wind, solar) generation
- Energy storage for power quality, synthetic inertia and frequency control for power systems
- UPS and other standby power supply applications
- Energy storage for consumer electronic products
- Energy harvesting and storage

Energize magazine from EE Publishers is the official magazine for SA Energy Storage 2017.
